Course : CSE 4202 - Structured Programming II Lab		AY : 2022-2023	Second Semester
Teacher : Syed Rifat Raiyan		Program : BSc in CSE	Total : 40
1	The best features of the course were: Sir All is ok, just thanks for you sir The most awesome faculty good learning environment He was so good in teaching method. Everything The lectures and lecture materials N/A Sir was helpful and kind. He is best and very much considerate in every situation amazing theory classes and rifat raiyan sir himself Best Everything Leactures and support. Best Faculty Lecture materials, delivery of the lecture and way of dealing the problems of the students. One of the best structural programming teacher in IUT. No comments Elaborate explanations and helpful feedback. Everything Very cooperative and friendly No comments Lucid explanation. Instructor pushed me behind my limits and encouraged me to learn more which is an integral part of CS study. Lab tasks were standard and educational. It was quite good course very supportive teacher Really passionate way of teaching Learning some new topics Elaborate explanation of the topics Great teaching Community sir being nice well taught Good Good Best Faculty Project The Faculty Sir was always accessible, understanding towards the students. Plus his way of teaching made the topics easy to understand		
2	The course could have been improved by doing: N/A All is ok Letting him cook dont know of any Nothing to improve Not sure N/A Less lectures and more practice N/A more guidance regarding the project Best Good as it is Increasing the credit of this course and remove other irrelevant courses N/A No comments Faster pace If we had more time for this course No comments Being more strict in case of unfair means. Many students used ChatGPT and other online resources to solve lab tasks and even during the lab final exam. This is of course injustice to those students who actually solved the tasks with their own effort. If the course materials would taught with more time ,it would be more easy and helpful for students provide the course topic contents beforehand giving harder lab tasks Already a well planned course N/A Problem solving less talking and more coding faster Good Good Already the best course No idea Not repeating the topics which were already taught in first semester		
3	Comments related to the CO attainment of the course: Achieved All is ok Its in the best form attained Excellent Attained successfully N/A N/A N/A good Best Good All CO attained. Satisfactory No comments Attained Helpful No comments CO were attained The outcomes are good but not that much efficient attained Great No comments Successful Great pretty good attained Good Good No comments None Good
